

Why forest managers value FSC certification for **CORK OAK FORESTS**?

Advantages identified by forest managers of the **FSC-certified oak forest** in relation to the **non-certified forest**

-  Identification of High Conservation Value (HCV)
-  Management planning (Use of appropriate silvicultural practices, Minimize or avoid the use of pesticides)
-  Preservation and Promotion of Ecosystem Service
-  Monitoring and Impact assessment
-  Legal Compliance (Workers rights and working conditions)
-  Diversification of the local economy
